

Ten Ten 21

Ten Ten 21 is a casino table game owned by Fair Trade Gaming. ProTec Games, Inc. developed the electronic simulator for this game. Ten Ten 21 is an optional side bet of the traditional Blackjack game: the player bets on the dealer's first two cards. If the dealer's up card is a 10-value card, it pays up to 6 to 1 depending on what the dealer's hole card is.
